# Universal Controller 7.2.x Maintenance

- [Introduction](#)
- [Product Packaging](#)
  - [Versioning](#)
  - [Packaging Methods](#)
- [Package Maintenance Levels](#)
  - [Release 7.2.0.0 - April 1, 2022](#)
  - [Prior Maintenance](#)

## Introduction

Stonebranch provides product maintenance in the form of updated product installation packages. This document lists the product installation package maintenance history for Universal Controller 7.1.x.

### Note

 For Universal Controller 7.2.x, applying maintenance refers to the increase from a currently installed 6.1.x, 6.2.x, 6.3.x, 6.4.x, 6.5.x, 6.6.x, 6.7.x, 6.8.x, 6.9.x, 7.0.x, 7.1.x, or 7.2.x [version](#) of the Controller to a later 7.2.x version of the Controller (for example, increase Controller 6.1.3.1 to Controller 7.2.0.0).

## Product Packaging

A package maintenance level is incremented when the package changes or the package installation changes.

Stonebranch changes product version, release, or modification identifiers at its discretion when it deems an appropriate number of enhancements or capabilities have been introduced to warrant the change.

## Versioning

Package version numbers are comprised of four numeric identifiers: version, release, modification level, and maintenance level.

For example, for Universal Controller 7.2.0.0:

- 7 = Version 7
- 2 = Release 2
- 0 = Modification Level 0
- 0 = Maintenance Level 0

## Packaging Methods

The Universal Controller 7.2.x packages are provided in formats appropriate for the target platforms.

See [Installation, Upgrade, and Applying Maintenance](#) for information on installing, upgrading, and applying maintenance to the Universal Controller.

## Package Maintenance Levels

This section identifies the changes included in Universal Controller 7.2.x.

## Release 7.2.0.0 - April 1, 2022

Change ID	Description
E-01640	<ul style="list-style-type: none"> <li>• B-12909 UX: Icon refresh/modernization.</li> <li>• B-13836 UX: Buttons/Icons without labels should have meaningful hover hints.</li> <li>• B-13840 UX: Left/Right panel layout for List and Details sections.</li> <li>• B-13841 UX: Form layout using 'top' orientation for field labels and removal of blue border around form sections.</li> <li>• B-13843 UX: Quick collapse button for List and Detail sections.</li> <li>• B-13844 UX: Change command dialogs to be compliant with new form layout.</li> <li>• B-13882 UX: Global Search - Searching the Name, Description, and/or Member of Business Services across multiple record types.</li> <li>• B-14235 UX: Top Level Tab Pinning.</li> <li>• B-14236 UX: Convert Navigation from Tree to Accordion with New Categorizations.</li> <li>• B-14237 UX: Implement Available Services Panel.</li> <li>• B-14238 UX: Implement Available Services Favorites.</li> <li>• B-14239 UX: Available Services Group Navigation Visibility.</li> <li>• B-14240 UX: Available Services New Option.</li> <li>• B-14241 UX: Workflow Editor New Task Option.</li> <li>• B-14242 UX: Move Form Error Messages from the Console to the Form.</li> <li>• B-14243 UX: Toolbar Navigation.</li> <li>• B-14244 UX: Clock Widget Relocation and Add Click Indicator.</li> <li>• B-14245 UX: Available Services Recently Visited.</li> <li>• B-14247 UX: Tab option to auto open on login.</li> <li>• B-14248 UX: Persist Pinning Across User Sessions.</li> <li>• B-14249 UX: JSP Page Updates (Login, Change Password, Error, Prohibited, etc.).</li> <li>• B-14252 UX: Theming (Light/Dark).</li> <li>• B-14626 UX: Use asterisk instead of bold for required field.</li> <li>• B-15104 UX: Add refresh icon to manually refresh the Services panel content and automatically refresh content after Import Template.</li> <li>• B-15577 UX: Add ability to remove (unfavorite) items directly from the navigation stack.</li> <li>• B-15601 UX: Add "Open In New Tab" option to Services menu.</li> <li>• B-15604 UX: Review and adjust popup height for forms to avoid vertical scrollbars.</li> </ul>
E-01641	<ul style="list-style-type: none"> <li>• B-12274 UIP: Universal Events - Definition.</li> <li>• B-12275 UIP: Universal Events - Universal Monitor.</li> <li>• B-12291 UIP: Universal Events - Publish - Universal Extension.</li> <li>• B-12292 UIP: Universal Events - Publish - Web Service.</li> <li>• B-12276 UIP: Universal Events - Universal Monitor Trigger.</li> <li>• B-12285 UIP: Universal Events - Composite Trigger - Universal Monitor Component.</li> <li>• B-14266 UIP: Universal Events - Built-in System Property Changed Universal Event.</li> <li>• B-14525 UIP: Universal Events - Authorization.</li> <li>• B-14541 UIP: Universal Events - Web Service API - Global Event Template CRUD.</li> <li>• B-14542 UIP: Universal Events - Monthly Execution License Exclusions.</li> <li>• B-14543 UIP: Universal Events - Web Service API - Translate Filter.</li> <li>• B-14612 UIP: Add Large Text Field 3 and Large Text Field 4 mappings.</li> <li>• B-14613 UIP: Increase Large Text Field maximum length.</li> <li>• B-14744 UIP: Universal Events - Use trigger id/monitor id in launch message for Universal Task Publisher.</li> <li>• B-14814 UIP: Universal Events - Filter Universal Task Publisher drop-down by Extension-based Universal Tasks.</li> <li>• B-14934 UIP: Universal Events - Universal Events - Ensure a Universal Task Publisher always completes when a Universal Monitor completes.</li> <li>• B-14535 UIP: Universal Extension - Allowing Variables Visible on Task Instance to be directly accessible within the Extension.</li> <li>• B-15585 UIP: Universal Events - Ability to toggle auditing of published Universal Events.</li> <li>• B-15599 UIP: Universal Events - Inspect Universal Events Server Operation</li> </ul>
B-03694	Add a Date Qualifier of Quarter to Time Trigger and Run Criteria.

B-10374	Local Password Rules - Optionally Disallow Password Reuse.
B-12877	Add explicit FTPS (FTPES) support to UFTP (UC Task form changes).
B-13942	Time Trigger: Allow Multiple Select for Day Style = Complex Noun and Qualifier.
B-13976	Time Trigger Restriction : Allow Multiple Select for Complex Noun and Qualifier.
B-14143	Download / Upload Definitions.
B-14250	Output Path Token functions that generate a file path token for a temporary file containing task instance output.
B-14259	Validate UC Support for Oracle 21c.
B-14318	Upgrade SmartGWT Libraries.
B-14629	When using Web Services APIs that consume XML and/or JSON or Import Template, disable failing on unknown properties.
B-14632	View/Edit Predecessors/Success: Allow window resize to accommodate large task names.
B-14635	Allow users permission to edit their own user details.
B-14636	Task Monitor the most recent prior Instance of the Task.
B-14646	Add additional information to Promote... command response message.
B-14697	Function to Return Total # of Lines for Specific Output Type.
B-14859	Replace Log4j 1 library with Reload4j library.
B-15103	Allow bootstrap without "USE dbname;".
D-10564	The "canResolve" field for Agent Clusters is not on the DataSource.
D-10570	Universal Template "Name" field is displayed without being escaped in several locations.
D-10579	Bulk Import Server Operation inserting duplicate tab/user preferences.
D-10582	Controller with unlimited z/OS licenses refuses Secondary agent licenses.
D-10586	Read Task API doesn't return Action UUID in JSON.
D-10590	'outputs' error in the smartgwt.log when create a new Promotion Target.
D-10607	Copy Task - Incorrect Early Finish Offset Type.
D-10608	Create Composite Trigger with Time Component 's Event Match Type = Multiple always fail via Web Services API.
D-10615	Agent Cluster field is hidden when adding new task to a Cluster.
D-10620	Multi-update cell editor for time/duration fields is not closed when tabbing to the next cell.
D-10627	Web Service - Label is wrong when use web service api to update a Web Service Task with undefined Payload Script (payloadRef).
D-10636	Type = Outgoing when add an Incoming Email Connection to a Bundle.
D-10640	Bundle Report Web Service - "Name", "Description" and "Added By" escaping issues.
D-10647	Multi Update for Virtual Resources should prohibit clearing Resource Type field.

D-10653	Dark Theme - Boolean Column Display Format Checkbox - Always display Checked.
D-10660	Updating Agent related License Information on Passive Node should not attempt to send to Agent.
D-10673	SmartGWT - Update Issue - when redrawOnChange is true.
D-10678	User without appropriate role can read a group through Web Service.

## Prior Maintenance

See [Universal Controller 7.1.x Maintenance](#) for changes previously included in 7.1.x maintenance releases that also are included in the 7.2.x releases.
